About Me

Hello. It is always a pleasure to work in a team, but the privilege of leading is the highest honor that a man can offer. Committed to the responsibilities and performance in my duties. I put all my care into everything I do, going the extra mile to be the best at what I do inside and outside of coding.

Experience

• Avilnet, LLC 2020 - current

Chief Executive Officer (CEO) & Founder

Performance leader dedicated to developing mobile applications for IOS and Android. Planning of marketing plans, strategies and graphic design. Maintenance of the website and cybersecurity of the company.

Non-technical experience

• AT&T, Yauco PLaza I, 2012 - 2015

Sales Support

Inventory management, planograms, customer service, key holder, cash balance among others.

Education

• Holberton School, Software Engineer School, Oct 2022

Software Engineer

Project AirBnB clone

https://github.com/yamilavila/holbertonschool-AirBnB_clone_v2
Platform developed from the interpreter, console, load balancer and servers. Back-end to Front-end with two data engines, one as file storage and the other as database. API integration with JSON files.

• Interamerican University of Puerto Rico, San German Campus, May 2007

BA, Biology

Sub specialized in pre-medical. Approved courses: anatomy, physiology, biochemistry, physics, organic chemistry, zoology, botany, microbiology, animal cell biology, ecology and evolution.
